DRIVEWAY PERMIT

Chesterfield Building Code Section IV, 16.03 DRIVEWAY PERMITS

- A. Any new drive from a public road or private road shall require a driveway permit from the town Highway Department Director and approved by Code Enforcement showing how it meets minimum town requirements. Factors to be considered include a safe location, suitable grade at its junction with the road, and adequate drainage provided to support any additional flows from the driveway onto adjacent properties.
- B. The Building Inspector shall not issue a building permit before approving a driveway permit which meets town requirements if a new driveway is required.
- C. Modifications to driveways that increase stormwater runoff require preapproval by the Highway Department Director and Code Enforcement and the receipt of a revised driveway permit. The modification must ensure continued adequate drainage in the Public Road drainage system and adequate drainage provided to support any additional water flows from the driveway onto adjacent properties.

Chesterfield Zoning Ordinance 207.4 DRIVEWAYS

- A. Front Yard: Driveways shall commence from the front setback of a lot and shall cross the front yard spaces established by the front setback requirements.
- B. Corner Lots: On a corner lot, the driveway shall be off the lesser traveled street.
- C. A shared driveway is allowed for a maximum of two conforming lots. Shared driveway must cross the setback of first conforming lot and shall cross the side setback to reach the second conforming lot. Such access and maintenance agreements shall be deeded on both lots.

DRIVEWAY PERMIT

Driveway Modification Form

To Be Completed by Landowner

FOR DRIVEWAY MODIFICATIONS PLEASE ANSWER THE FOLLOWING QUESTIONS

1. What are the proposed modifications to the existing driveway?

(example: *Converting a gravel driveway to asphalt.*) _____

2. Will these proposed modifications increase stormwater runoff onto the Public Road drainage system, neighboring properties and/or public water bodies? Why or why not? (example: *Paving over a gravel driveway with asphalt increases the water velocity.*) _____

3. Describe how this modification will provide adequate drainage in the Public Road drainage system as well as controlling any additional water flows from the driveway onto neighboring properties and/or public water bodies.

(example: *Directing water to the edge of driveway into infiltration trenches or water bars.*) _____

See [NH Homeowner's Guide to Stormwater Management \(2019\)](#) for more ways to support additional water flows from the driveway modification.

Got Permits?

Permit Guidance for Land Management Projects

Your construction project may require one or more permits from the New Hampshire Department of Environmental Services in addition to local permits that may be required. For projects that do not require a permit, there may be guidelines that you must follow during construction. This chart is intended to include the most common building project types. It is the responsibility of the property owner and contractor to understand all local, state, and federal laws for any given project.

Prior to	When working here	You need this approval
<u>Installing / repairing a dock, boat lift, or any other type of shoreline structure</u>	<u>Any lake, pond, river, or stream</u>	
Impacting the bank of any waterbody (i.e. bank stabilization or constructing or repairing retaining walls)	<u>On or within the bank of any lake, pond, river, or stream</u>	
Constructing a new beach or replenishing beach sand	<u>Adjacent to any waterbody</u>	<u>Wetlands Permit</u>
Excavating, removing, filling, dredging or constructing new structures	<u>Wetlands, Surface Waters, Upland Tidal Buffer Zone, Prime Wetland Buffer, Sand Dunes</u>	
Timber harvesting	<u>Crossing any stream or wetland</u>	
Tree cutting or vegetation maintenance / removal	<u>Within 150 feet of waterbodies protected under the Shoreland Water Quality Protection Act</u>	No permit required but must retain vegetation within limits described within the <u>Vegetation Maintenance fact sheet</u>
Applying fertilizer	<u>Within 250 feet of waterbodies protected under the Shoreland Water Quality Protection Act</u>	No permit required but the phosphorous component must be no greater than two percent
Constructing new structures such as residential dwellings, sheds, or driveways	<u>Within 250 feet of waterbodies protected under the Shoreland Water Quality Protection Act</u>	<u>Shoreland Impact Permit</u>
Earth moving or excavation with a total impact greater than 50,000 square feet		<u>Shoreland Impact Permit</u> & <u>Alteration of Terrain Permit</u>
Earth moving or excavation with an impact greater than 100,000 square feet	<u>Anywhere</u>	<u>Alteration of Terrain Permit</u>
Executing a purchase and sales agreement on waterfront property	<u>Contiguous to or within 200 feet of waterbodies protected under the Shoreland Water Quality Protection Act</u>	<u>Site Assessment Study</u>
Building a residential dwelling, converting to year-round use, adding bedrooms, or expanding living space		<u>Septic System Construction and Operational Approval</u>
Subdividing land for single-family, condominium, apartment, or campground	<u>Anywhere not serviced by municipal sewer</u>	<u>Subdivision Approval</u>
Subdividing for non-domestic septic, higher loads, or setback issues		<u>Groundwater Discharge Permit</u>
Installing a well closer than 75 feet to a septic system	<u>Anywhere</u>	Must file a Recorded Well Release
Supplying water for 25 or more people 60 or more days a year	<u>Anywhere not serviced by municipal water</u>	<u>Community Well Siting & Engineering Design Approval</u>
Withdrawning greater than 57,600 gallons per day of groundwater from one or more wells	<u>Anywhere</u>	<u>Large Groundwater Withdrawal Permit</u>
