# Got Permits?

## Permit Guidance for Land Management Projects

Your construction project may require one or more permits from the New Hampshire Department of Environmental Services in addition to local permits that may be required. For projects that do not require a permit, there may be guidelines that you **must** follow during construction. This chart is intended to include the most common building project types. It is the responsibility of the property owner and contractor to understand all local, state, and federal laws for any given project.
