

## Gravel Road Committee

### Minutes for 8/23/22

Attendees: Harvey Clough, Brad Roscoe, John Zannotti, John Kondos

Began Meeting at town office at 11:30am.

Reviewed, approved minutes; moved by Brad, 2<sup>nd</sup> by John Z.

Reviewed our gravel road observations from 8/16/22 tour with BA:

#### Old Chesterfield Road

- House #240 for ¼ mile (~1300')- BA states that it is worst by Petschick (sp?) hse. Kathleen Sweeny's input is that it is worst by Petschick (#210-#220)
- #92 for 300 feet
- ~250 feet at Morts Rd
- Utilized by residents, school personnel and short cut drivers
- About 22 houses affected
- Estimate of problem sections 1850 ft

#### Old Swanzey Road

- #283 for 1000 feet
- Dead end road
- Used as bus route
- About 30 houses affected
- This section has issues with limited side runoff capability
- Estimate 1000 ft

#### Zinn Road

- From #4 for ¼ mile up to upholstery shop.

- Dead end road
- 15 houses affected
- Estimate 1000 ft

#### North Hinsdale Road

- From #72 for 1000 feet
- Becomes dead end when closed in Winter, residents accept seasonal through road use.
- Estimate 1000 ft

#### Poocham Road

- #350 up 1000 feet to Dave Smith's house
- #441 up 1000 feet
- 300 feet from about #90 to #130
- Estimate 2300 ft

Estimated measurement of problem sections observed: ~ 7500 ft.

#### Gulf Road

- Did not observe – discussed that from Herrick Road to bottom was particular issue.
- Committee would like to do a drive through on or about 9/6-8 at 11:30 when BA is available.

Next meeting- will be at the Atherton Hill Rd job site on 8/31/22 at 9AM. This comm would like to speak with Mike from EJP, vendor for geotextile, expected to be present at Atherton Project then.

Based on the increased frequency of intense precipitation events, concern raised of need to rethink ditch and culvert maintenance was expressed.

12:15pm – Adjourned; moved by Brad, 2<sup>nd</sup> Harvey.
